Can the right technology deliver future-proof flexibility?

Innovation often comes on the heels of disruption, especially for small to medium-sized businesses (SMBs). Whether you return to the office or incorporate hybrid work, it's important to prepare for whatever's next while navigating the here and now.

So, what's the best way to keep your teams connected, collaborative, productive and secure from anywhere?

FLEX WITH FUTURE-READY CAPABILITIES.

With DocuShare Go, the next normal of business is rife with possibilities — realizing new efficiencies, harnessing growth opportunities and taking advantage of the latest technologies to stay nimble and a step ahead.

A PLATFORM THAT'S AS FLEXIBLE AS YOUR CONTENT.

Using advanced artificial intelligence (AI) and machine learning (ML) technology, Xerox DocuShare Go simplifies content storage and retrieval by automatically tagging files with data captured at the point of upload. It also drives productivity with workflow automation and team sharing, including real-time document collaboration.

SECURE AND ACCESSIBLE ANYTIME, ANYWHERE.

Using Amazon Web Services (AWS), DocuShare Go is hosted on the most secure global infrastructure, delivering the highest standards for privacy, compliance and data security.

XEROX DOCUSHARE GO

WHAT IT IS:
DocuShare Go is a cloud-hosted (SaaS) collaborative Content Services Platform.

WHAT IT DOES:
Digitizes document centric workflows and automates key processes.

HOW IT HELPS:
Fast tracks digital transformation with future-ready capabilities.

xerox™

EASY, SECURE FILE SHARING AT YOUR FINGERTIPS.

Say goodbye to sharing documents across unsecured channels. Control who has access to what content and for how long. Only direct links to files or folders are shared with internal colleagues or external clients, you can add an expiry date and choose from view only or edit permissions.

FIND FILES FASTER THANKS TO AI AND ML TECHNOLOGIES.

All uploaded documents are tagged with information captured by advanced technology — optical character recognition (OCR) and cutting edge intelligent character recognition (ICR). Even handwritten notes are searchable, allowing you to easily find and retrieve manually amended documents.

REAL-TIME, CONCURRENT COLLABORATION.

No more time wasted downloading files, making offline edits and manually tracking those changes. With automatic, error-free version control, frictionless real-time collaboration drives productivity.
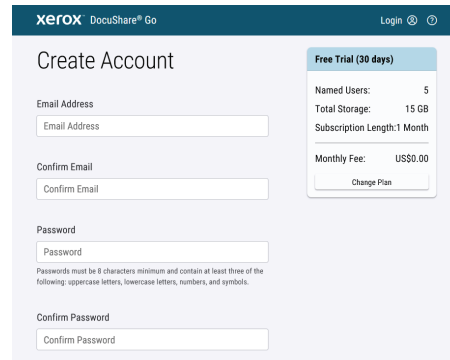

ACCOUNT CREATION IS AS EASY AS 1, 2, 3.

Fast, simple account creation means you can get up and running in a matter of minutes, not hours or days — no need for IT assistance, no need to download software or maintain hardware. And cloud hosting means you get 24/7 uptime.
