

Xeretec Azure **Licensing Health Check**

Unlock Maximum Value from Your Microsoft Azure Investment

Struggling to connect usage to business value *and ROI?*

Organisations are often the victim of their own cloud success — more and more unanticipated cloud projects start showing up, blowing out the original budget estimates for resources.

This is where Xeretec's Azure Licensing Health Check comes in. We can help provide the clarity, control, and cost optimisation your business needs—powered by smart analytics, AI-driven tagging, and our expert in-house guidance.

Our platform provides organisations with actionable insights to maximise the value of their Azure environments. Our insights make it possible to optimise financials, improve productivity and adoption, and secure identities and resources – all presented in clear, easy-to-understand dashboards.

Make Sense of Your Azure Spend

Actionable Insights with our Free Health Check

With the rising complexity of cloud licensing, it's easy to lose sight of what you're really paying for. Xerotec demystifies Microsoft Azure by helping you:

Analyse

Make sense of your usage and fixed contract costs you're really paying for.

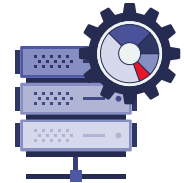

Clarify

Clarify billing structures and reconcile usage against business priorities

Adapt

Investigate and adapt spend to your changing cloud landscape

Improve

Manage, improve, and contextualise cloud spend with FinOps practices

This service is ideal for organisations with CSP, PAYG, or EA licensing models

Key Benefits

1

Clarity on Azure Billing

We break down complex invoices and usage reports, giving you full transparency on where your money's going—and why.

2

Smarter Cost Strategies

With powerful analytics and forecasting, plus guidance from our Expert Recommendations Engine (EREN), we deliver tailored insights to convert waste into value.

3

AI-Driven Tagging for FinOps

Use intelligent tagging to align IT spend with business categories, drive accountability, and accurate cost control across departments.

4

Ease of Visibility

Our intuitive dashboards simplify complex Azure environments, making it easier to track, manage, and optimise usage in real time.

5

Real Savings, Real Results

Our clients secure savings averaging 18–37% by following our data-driven, actionable recommendations.

What's Included in the Health Check?

Review of Azure
Reserved Instances vs
Pay-As-You-Go

Billing structures
and cloud economics
insights

Cloud usage trends
and overprovisioned
resources

Security and
compliance
assessment

strategies tailored to
business outcomes

How It Works

➔ Book a Call

➔ We learn about your environment, business goals, and current challenges.

➔ Environment Review

➔ Our specialists perform a secure, non-intrusive review using FinOps analytics and Microsoft best practices.

➔ Actionable Report

➔ You'll receive an expert-led report—powered by EREN—with specific cost-saving opportunities, compliance improvements, and usage optimisation tips

➔ Follow-Up Consultation

➔ We help you prioritise quick wins, plan for renewal cycles, and align your cloud licensing with strategic goals.

Frequently asked questions

Q: Is there a cost to complete the health check?

A: No, the Health Check is free to run. It requires read-only access, and is a secure means of uprooting hidden opportunities to right-size, optimise, and enhance Azure resource usage.

Q: What does the health check look at?

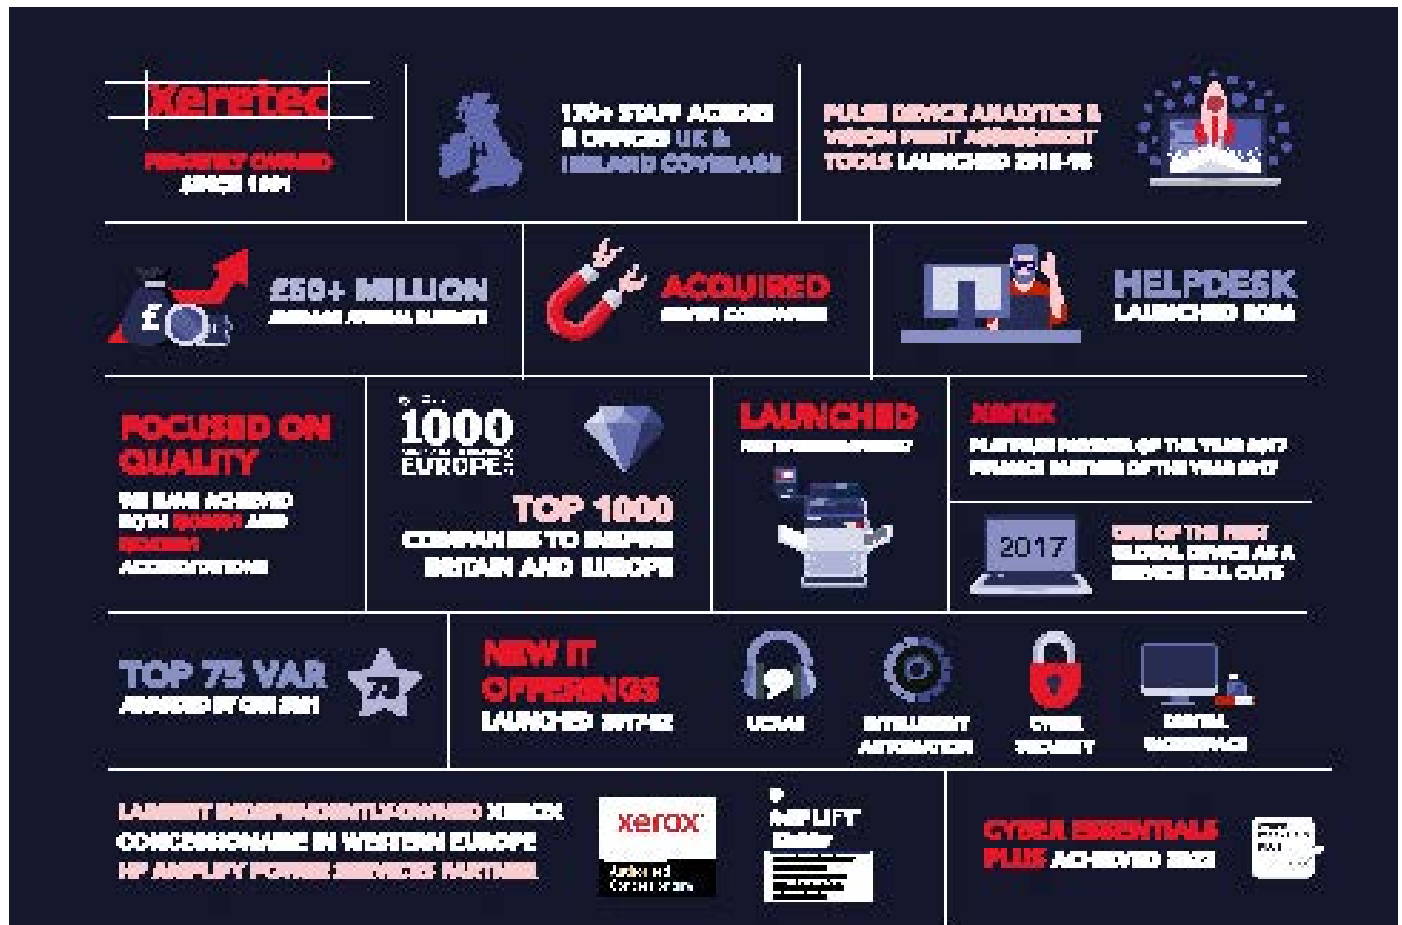

A: The Azure Health Check offers a comprehensive overview of potential cost-saving opportunities, providing both high and low estimates of your monthly and annual savings. It analyses key areas such as resource usage and virtual machine optimisation, delivering valuable insights FinOps reporting and reveal spending trends.

Q: How do I get started?

A: In order to complete a health check all we require is someone with global admin access to authorise an onboarding link. Once activated, we ask for 7 days to allow the data to filter through. We will then arrange a Teams call to present the findings of our healthcheck back to you.

Why Choose Xeretec?

Xeretec combines deep Microsoft expertise with cutting-edge analytics platforms to deliver tangible business outcomes. Our cloud and licensing experts don't just diagnose problems—they recommend and guide implementation for lasting impact.

Take Control of Cloud Costs Today:
Stop guessing. Start optimising.
